

# ACKNOWLEDGEMENT

It gives us immense pleasure to write an acknowledgement to this mini project, a contribution of all people who helped me realize it.

We are very thankful to the Principal, **Dr . Kumar Kenche Gowda**, VKIT, Bengaluru, for being kind enough to provide me an opportunity to work on a mini project in this institution.

We would like to convey our heartfelt thanks to our beloved HOD, **Dr. VIDYA A, Dept. of Computer Science and Engineering**, for giving us the opportunity to embark up to this topic.

We would like to sincerely thank our mini project guide **Mrs. Sunanda H G and Mrs. Pavithra H C**, Asst. Professor, Dept. of CSE for their valuable guidance, constant assistance, support and constructive suggestions for the betterment of the mini project, without which this mini project would have not been possible.

Finally, it is a pleasure and happiness to the friendly co-operation showed by all the staff computer science department, VKIT.

**ANIL KUMAR S K (1VK17CS004)**

**HARSHITHA G (1VK17CS017)**

# **ABSTRACT**

This project is developed for the college, to simplify examination seating arrangement manual work. Presently, the seating arrangement for the examinations is done manually. Initially the examination section has to collect all student examination registration details branch wise and year wise. These details include name, roll no. , branch, year, list of subjects registered for exam. The administrator need to count the total number students registered. Then he needs to select the rooms and divide the students among those rooms. After dividing the rooms, he need to prepare students list for each based on the exam. He also needs to prepare the seating arrangement list for each room based upon the count. All this work need to be done for each exam and for each branch and year. This is very tedious work and there are many chances for mistakes to occur due to manual work. The examination seating arrangement system atomizes the existing system of assigning seating arrangement.

# TABLE OF CONTENTS

<b>SL.No.</b>	<b>Description</b>	<b>Page no</b>
